Lucky Halloween Rules Summary:

1. Place the small candy points in a pile.
2. Shuffle the monster cards and candy points cards together.
3. Reveal cards from the monster / candy points deck. After each card ask if the students want to stay in or leave. If they leave give them a cut of the points.
4. If two of any monster are revealed then the round ends and any player still 'in' do not get anything. If all players decided to leave the round is over and any 'in' players split the remaining points between them. Any remaining points go into the next round.
5. Reshuffle the points / monster deck.
6. Start the next round. Play for five rounds.
7. The player with the most points at the end is the winner.
